

DAVID CHMURA

Aspiring Robotics Engineer

CONTACT

(959) 226-0419

chmura.d@northeastern.edu

74 Knight's Court,
Southington Connecticut

SOFTWARE EXPERIENCE:

Solidworks, Autodesk Inventor,
Onshape, Foxglove, Visual Studio
Code, Android Studio, Arduino IDE

PROGRAMMING

EXPERIENCE:

Python, Java, C++, C#, Vue, HTML,
ROS2, Git, Rest APIs

AWARDS/ACHIEVEMENTS

Oratorical Contest

A national contest held yearly by the American Legion, where people not only have to give an 8-10 minute speech but also create a 3-5 minute speech in the 5 minutes of preparation time allotted. I won both my school and district level competitions, advancing to the state level.

Bausch and Lomb Science Award

The Bausch and Lomb Honorary Science Award offered by the University of Rochester is given to one high school junior and is chosen for excelling performance in multiple different fields of science.

PROFILE

A freshman college student who places a priority on academic success, taking many high level courses at AP or college-level curriculum. Recognized for outstanding work ethic, teamwork, and an innate desire to learn.

EDUCATION

Southington High School, Class of 2026
Honors Student at Northeastern University

PROJECT LEAD THE WAY

Project Lead the Way is a four year pre-engineering program based on RIT College curriculum where the students were selectively chosen to participate and learn important engineering concepts in High School.

- Intro To Engineering and Design (9th Grade)
- Digital Electronics (10th Grade)
- Principles of Engineering (11th Grade)
- Computer Integrated Manufacturing (11th Grade)

AP COURSES AND SCORES

- Biology - 5
- Calculus AB - 4
- Chemistry - 5
- Computer Science A - 5
- Literature and Composition - 4
- Government and Politics - 5
- Human Geography - 5
- Statistics - 5
- Language and Composition - 5
- Physics C Mechanics - 5
- Physics C Electricity and Magnetism - 5
- Psychology - 5
-

Calculus II at CT State University
Topics in Advanced Latin at UCONN

ROBOTICS

As a part of FIRST Robotics Team 195 for four years, I learned a lot of useful skills applicable to industry. In my time at robotics, I learned valuable skills such as how to use and create PID controllers, using Git systems, and mentoring skills. I also learned about ROS2 systems, developed teamwork, gained experience working with industry experts. In my final year I was the head student in charge of programming for the robot.

Work Experience

Lifeway Mobility Internship - Summer 2025

At lifeway, I helped create, test, and document many applications and help manage company assets.

CLUBS

- Chess Club - Founder
- Tennis Team 3yr
- Math Team - Captain
- Science Bowl - Captain
- Aviation Club
- American Computer Science League
- National Honor Society
- Black Belt in Karate

VOLUNTEER WORK

- FLL Mentoring(40+ Hours)
- Robotics Competition Assistance (50+ Hours)
- Teaching Assistance for Geometry (60+ Hours)
- Assisting Veterans Honorary Dinner (10+ Hours)
- Helping with Church Events (10+ Hours)
